Mid UX/UI Designer with 4+ years of experience leading end-to-end design processes across digital products in diverse industries. Skilled in UX strategy, interaction design, design systems, CRO, and agile collaboration. I combine user-centered thinking with data-informed decision making to create experiences that drive engagement, conversion, and business growth. Experienced in leveraging AI tools to accelerate research, ideation, and validation workflows.

SKILLS

- Design Tools: Figma, Framer, Suite Adobe, Lovable.
- AI Tools: Claude, ChatGPT, Prompt, Figma Make, Open Design
- Product Design: Discovery, User Research, Wireframing, Prototyping, Design Systems, Interaction Design.
- UX Research: User Interviews, Usability Testing, Benchmarking, Journey Mapping, Competitive Analysis
- Optimization & Growth: CRO, A/B Testing, Mobile First, Responsive Design
- Other: Clickup, Google Analytics.

EXPERIENCE

UX/UI Strategist | Triario (Marketing Agency) (04/2024) – Present

- Designed user-centered experiences for websites, applications, and digital platforms across finance, healthcare, architecture, and tech industries.
- Created wireframes, user flows, mockups, and prototypes to support product development initiatives, with a focus on interaction design, Mobile First, and responsive.
- Built and optimized responsive websites using Webflow, ensuring brand guidelines and design standards are met across deliverables.
- Delivered 20+ redesigns for national and international clients across finance, healthcare, architecture, and tech, migrating around 3,000 pages with consistency and precision.
- Ensured consistency across interfaces through the use of design systems and reusable components built in Figma.
- Created CRO reports and strategies that boosted site traffic by up to 33%.

Web Designer (UX/UI Design) | Karibik (Fashion Brand) (03/2022) – (12/2024)

- Led a complete redesign of the e-commerce experience, contributing to a 50% increase in online sales.
- Conducted user interviews and research to identify friction points in customer journeys, translating insights into improved web and mobile experiences. Ensured consistency across interfaces through the use of design systems and reusable components built in Figma.
- Redesigned the mobile app data collection flow, improving usability and aligning the experience with evolving customer and business requirements.
- Designed user flows, wireframes, and high-fidelity mockups to map and optimize the full shopping experience across web and mobile.

- Designed and launched the company's internal HR intranet platform, streamlining operational processes and improving internal workflows.
- Partnered closely with development and IT teams to ensure successful implementation and product consistency.

Graphic & Web Designer | Berer Studio

(08/2021) – (03/2022)

- Developed and executed social media strategies, creating visual content aligned with brand identity and business goals.
- Designed graphics, layouts, and assets for campaigns across multiple digital platforms.
- Managed product uploads and maintained visual consistency across the e-commerce platform. Supported web design efforts, ensuring a cohesive and on-brand digital presence.
